STATEMENTS REGARDING THE COURSE OF INSTRUCTION.

RELIGIOUS SERVICES AND INSTRUCTION.

The students attend daily morning and evening prayers in the College Chapel. On Saturday evening the attendance is voluntary.

On Sunday at 4½ o'clock, P. M., Evening Prayer is said, followed by a sermon. All students are required to be present. They attend the morning service at such church in the city as their parents or guardians designate.

Voluntary services are held during Advent and Lent, and at other times, in connection with the pastoral work in the College.

The Monday morning recitation is devoted to religious studies. These comprise, during the College course, the following subjects: Introduction to the study of the Holy Scriptures, including critical readings of the New Testament in Greek; Evidences of Christianity; the Articles of the Christian Faith as contained in the Apostles' Creed; and the Book of Common Prayer.

LOGIC AND OTHER STUDIES.

The Rt. Rev. John Williams, D. D., gives instruction in Logic to the Senior and Junior Classes, by recitations and lectures, from week to week throughout the year.

Special attention is given, in Ethics and Evidences, to Butler's Analogy and Butler's Sermons; in Natural Philosophy, to Optics and Meteorology; in Natural Science, to Mineralogy, Botany and Zoology, as a preparation for the study of Geology. The recitations are, as far as practicable, in writing.

ENGLISH.

In the written translations of Freshman year, attention is given specially to the change of Greek or Latin idioms into English idioms; and, in connection with the study of English synonyms, exactness is required in the choice of words. Seniors, Juniors, and Sophomores, are expected to write essays and declaim once in two weeks throughout the year.

During Senior year, in connection with a critical study of Shakspeare especially as illustrating English History, members of the class meet weekly to read Shakspeare under the direction of the Professor of English.

Special attention is given in the studies of the course to the Science of Language, to *early* English Literature, and to the History of the Language.

The course in Oratory is as follows :

Freshman Year ; the study of gesture, attitude and action, with frequent exercises in declamation.

Sophomore Year ; the study of vocal culture, with practical exercises in reading and declamation.

Junior Year ; same as the Sophomore year, with the addition of poetic recitations.

Senior Year ; lectures on manner and style in public speaking, with readings from the plays of Shakspeare.

MODERN LANGUAGES.

French and German form a part of the regular College course.

Instruction in Spanish and Italian is given without extra charge, to any member of the Senior Class who may desire it.

EXAMINATIONS.

Monthly Reviews are held in each Department at the end of every four weeks.

The Examinations at the close of Christmas Term are upon the studies of the whole term.

The Annual Examinations, in presence of Committees appointed by the Corporation, the Board of Fellows, and the Faculty, are in writing, upon all the studies of the year. The Examinations of the Seniors for degrees, begin on June 15th, 1868, and the Junior, Sophomore and Freshman Examinations begin on the 29th of June.

Examinations for Honors follow the Annual Examinations. Admission to these is regarded as itself an honor, as it is gained by passing the Monthly Reviews and the Annual Examinations with great credit. Success in the Examinations for Honors entitles a student to peculiar distinctions both during and after his College course.

EXAMINATIONS FOR THE DEGREE OF BACHELOR OF SCIENCE.

Students may receive the degree of Bachelor of Science, provided they have resided at least two years and a half in College, and have regularly passed the examinations in all the prescribed studies of the Academic course, except the Greek ; together with a further and more particular examination, satisfactory to the Faculty and Board of Examiners, in one of the following branches, viz. ; Differential

and Integral Calculus; Practical Astronomy; Analytical and Agricultural Chemistry; Geology and Mineralogy; Natural History; or Civil Engineering.

Any student of the College may receive the Degree of Bachelor of Science, together with that of Bachelor of Arts, upon passing a special examination in the regular Mathematical and Scientific course, and the further examination above indicated.

Notice of intention to apply for this degree must be given to the Faculty, at least six months before Commencement.

MATRICULATION.

Extracts from the College Statutes.

SEC. 1. Matriculation shall consist in signing, in the presence of the President, Faculty, and others, the following promise:

"I promise to observe the statutes, lawful usages and customs of Trinity College; and to maintain and defend her rights, privileges and immunities, at all times and in all places, according to my station and duties in the same."

SEC. 2. All non-matriculated persons are considered as on probation, and therefore not entitled to the full privilege of members of the Institution. Upon giving evidence of good character, they are admitted to matriculation at the close of the term in which they have entered. Unless they are allowed to matriculate as early as at the end of the second term of their course, they cease to be students of the College.

STANDING.

The standing of a student is reckoned from the beginning of the Freshman Year, and is determined by his diligence in study, his punctuality in attendance, and his general good conduct.

At the close of each term, a report of the scholarship, attendance and conduct of each student is transmitted to his Parent or Guardian.

Appointments at Commencement are assigned to the members of the Senior Class according to the aggregate of marks attained by each of them during the entire College course. When a student has entered an advanced class, or, except in case of sickness, has been absent from College for a long time, his standing for each term of his absence is considered to be the same as that which he has gained while in residence, with a reduction of 5 per cent.

No appointments are ordinarily assigned to any student who has entered College at or after the beginning of the Senior Year.

TERMS AND VACATIONS.

There are two terms in the Academic year. Christmas Term begins about the middle of September. Trinity Term begins near the 20th of January, and closes with Commencement. Commencement Day is the second Thursday in July (in 1868, July 9.)

Christmas Vacation continues about four weeks. Trinity Vacation continues nine weeks from Commencement. There is also a recess of nearly a week in the Spring.

LIBRARY AND CABINET.

The Library contains about 10,000 volumes, and is increasing from the income of the Bishop Burgess, Elton, Sheffield, and Peters Funds, amounting in the aggregate to \$20,700.

The Alumni Library Fund now amounts to \$2,000.

The Library contains besides the books, various engravings and paintings.

Books can be consulted and drawn by the students every Saturday from 10 to 12 A. M.

The Cabinet possesses a valuable collection of Minerals, Fossils, and Shells, and is open for examination and study every Saturday morning.

The Libraries of the Literary Societies contain about 5,000 volumes, exclusive of pamphlets and unbound volumes, which can be used under the rules of the societies.
